2012 Human and Veterinary Dental Products Catalog

Hello! We are **Lake Forest Anatomicals** offering a select line of medically accurate, high-quality **dental models, wall charts** and related products for use in education, medical or dental practice. Made of **durable composite** plastic, each dental model is a colorful three-dimensional model suitable for professional practice, student or patient education, procedural demonstrations, and consumer education.

LFA #2880 TMJ Temporomandibular Joint Model

Our **Human Dental Anatomy models** include the human teeth, deluxe jaw with removable teeth, molar model, giant floss/ brush for child education and many more. Also, for the **Veterinary Dentistry field**, we offer the canine and feline jaw models in both clear transparent and standard composite, the exclusive Benedent® Triple Brush pet toothbrush and dental cream (at special discount prices) to aid in establishing good dental hygiene practices in pet care.

Our full color **Dental Wall charts** are laminated for long life and feature detailed illustrations of the human dentition system including anatomy of the tooth, teeth and jaw disease, and TMJ (temporomandibular joint) condition. Ideal for patient counseling and staff education.

SAVE! Order Directly Online! 5% Discount on your web store Order. Use Coupon Code noted at top of website home page. You may view all of our models at our website www.lakeforestanatomicals.com or visit our **E-Bay Web store** for additional models, charts and training aids not normally listed in our print catalogs.

Or, simply fax back our convenient **Fax Back Order Form** attached, or call, write or email us for more information. **Canadian and International Customers welcome!** Professional or institutional purchase orders accepted. We also accept PayPal (E-Bay), VISA, MasterCard, American Express, personal checks or money orders. Simply fax back our convenient Fax Back Order Form attached, or call, write or email us for more information. Will ship within 48 hours of receipt of payment.

Sincerely,
Lake Forest Anatomicals

a. Canine

Veterinary Anatomical models can be used professionally to describe pet care dental conditions to concerned pet owners and available veterinary care programs.

LFA #9195 Canine Jaw

LFA #9196 Canine Jaw CLEAR

Detail- Canine Dentition

TRANSPARENT DENTAL SKULL MODELS

Clear durable urethane allows transparent 3-dimensional views of roots and teeth. Full skull accurately shows the anatomical shapes, positions and proximity of roots to eye sockets and nasal cavity. Explain needed dental procedures without struggling with pet's mouth or using real skull to demonstrate suggested treatment.

Enables the technician or assistant to learn the dental anatomy more easily and is excellent for lecturing, wet labs and teaching students. Injection molded teeth are extra strong, natural color and are anatomically correct. Teeth can be drilled and restored (with acrylic); Orthodontic devices, crowns and splints can be applied to the models for demonstration purposes.

LFA #2515

LFA #2516

LFA #2518 Pug

Includes:

LFA #2515 Transparent Canine Skull
